Fund Review & Strategy

The Fund returned -2.59% for the month, outperforming the benchmark return of -2.66% by 0.07%. Year-to-date, The Fund returned 6.45%, outperforming the benchmark return of 5.81% by 0.64%. Global equity markets ended lower in April due to heightened tensions in the Middle East and concerns that US interest rates would stay higher for longer. Iran's attack on Israel stoked fears of a wider regional conflict, although tensions eased later in the month. Stronger-than-expected economic data, particularly in the US, raised hopes for a 'soft landing'. However, with inflationary pressures still present, most of the world's major central banks have maintained a cautious stance. Investors are still factoring in interest-rate cuts in the US, Europe, and UK sometime in 2024, but these are now expected to occur later in the year than previously forecast. Boston Scientific was among the top performers after its first quarter results beat expectations and management raised forward guidance. AstraZeneca reported results in late April with the top and bottom line materially beating expectations driven by solid sales growth. TotalEnergies added value after reporting solid results. It is evaluating a US primary listing. On the negative side, Manhattan Associates lagged despite solid results. The Target Fund Manager suspect this was driven by profit taking. Asahi Intecc's share price weakness continued. This was possibly driven by some profit taking as the company trades at high valuations versus its peers. In addition, there were concerns around competition driven by J&J's acquisition of Shockwave Medical, which could negatively impact Asahi's plasma wire business. Elsewhere, Accenture suffered after its first quarter revenue came in below expectations and guidance was lowered. The Target Fund Manager started a new position in TSMC, the Taiwanese semiconductor manufacturer. The company has deep and growing moats derived from its technological advantage. As the world transitions to ever more advanced semiconductor nodes, TSMC stands to benefit.

Tinjauan & Strategi Dana

Dana menjanjikan pulangan -2.59% pada bulan ini, mengatasi pulangan penanda aras -2.66% dengan perbezaan 0.07%. Sejak awal tahun sehingga bulan tinjauan, Dana memperoleh pulangan 6.45%, mengatasi pulangan penanda aras 5.81% dengan perbezaan 0.64%. Pasaran ekuiti global mengakhiri bulan dagangan lebih rendah pada April berikutan ketegangan yang meruncing di Timur Tengah dan keimbangan bahawa kadar faedah US akan kekal lebih tinggi untuk lebih lama. Serangan Iran ke atas Israel semakin melebarkan keimbangan konflik serantau, walaupun ketegangan mengendur pada akhir bulan itu. Data ekonomi yang lebih kukuh daripada jangkaan, terutamanya di US, memarakkan harapan untuk 'pendaratan lembut'. Namun begitu, dengan tekanan inflasi masih wujud, kebanyakan bank pusat utama dunia mengekalkan pendirian berhati-hati. Pelabur masih mengambil kira pemotongan kadar faedah di US, Eropah, dan UK pada tahun 2024, namun kini ia dijangka berlaku lebih lewat pada tahun ini berbanding ramalan sebelumnya. Boston Scientific antara yang berprestasi tinggi selepas keputusan suku pertamanya mengatasi jangkaan dan pihak pengurusan menaikkan panduan ke hadapan. AstraZeneca melaporkan keputusan pada akhir April dengan bahagian atas dan bawah mengatasi jangkaan secara material, didorong oleh pertumbuhan jualan yang kukuh. TotalEnergies menambah nilai selepas melaporkan hasil yang kukuh. Ia sedang menilai penyenaraian utama US. Meninjau sudut negatif, Manhattan Associates ketinggalan walaupun memberikan keputusan yang kukuh. Pengurus Dana Sasaran mengesyaki ianya didorong oleh pengambilan untung. Kelemahan harga saham Asahi Intecc berterusan. Ia mungkin disebabkan oleh penebusan sebahagian keuntungan kerana syarikat ini berdagang pada penilaian tinggi berbanding rakan seangkatannya. Di samping itu, keimbangan berlegar mengenai persaingan yang dicetuskan oleh pengambilalihan J&J ke atas Shockwave Medical, lalu boleh memberi kesan negatif kepada perniagaan wayar plasma Asahi. Di tempat lain, Accenture menderita selepas pendapatan suku pertamanya berada di bawah jangkaan sementara panduan pula diturunkan. Pengurus Dana Sasaran memulakan kedudukan baharu dalam TSMC, pengeluar semikonduktor Taiwan. Syarikat itu mempunyai potensi yang cemerlang berikutkan kelebihan teknologinya. Apabila dunia beralih kepada nod semikonduktor yang lebih maju, TSMC meraih manfaat.
