## Monthly Update / Laporan Bulanan Terkini

### Market Review

Malaysian Shariah equities for February saw another month of correction. Regional markets were generally weak, with the exception of the positive performance in China and Hong Kong, spurred by the launch of Chinese startup Deepseek end January 2025 and saw a sell-off in stocks related to the AI trade. February was the results reporting month, where a majority of companies reported their 2024 full year earnings. Overall, the plantation, banking and utilities companies reported earnings either in line or above. Whilst the disappointments came from the consumer, technology, gloves and oil and gas sectors. During the month, foreign investors were net sellers of equities yet again (the fifth consecutive month) of RM2.2bil, and year to date foreign outflow of RM5.33bil. The FBM EMAS Shariah Index closed the month at 11,411.79, down 2.77% MoM. The FBM Shariah Small Cap Index declined 7.0% for the month and underperformed the FBM EMAS Shariah Index.

### Market Outlook

Just six weeks into his second term, US President Trump has swiftly moved to fulfill his election promises, and his impulsive style has already introduced volatility to global markets. Despite the uncertainties surrounding a Trump presidency, we believe Malaysia's macro fundamentals remain resilient. Trump's policies on global growth and retaliatory tariff trade wars will undoubtedly impact Malaysia's economic growth. Foreign direct investment ("FDI") into Malaysia continues to be strong, evidenced by increased construction activities and the acquisition of industrial properties by investors. Tourism is also on the rise, contributing positively to general consumption. Additionally, consumption is likely to get a boost from the civil servants' pay hike in December 2024 and the 13% minimum wage increase effective February 1 2025. We remain constructive on Malaysia, as the domestic market is flush with liquidity. Any market corrections will provide opportunities to accumulate fundamentally strong stocks at more attractive valuations. However, we anticipate market volatility to be the norm under a Trump presidency, and we need to remain vigilant and be prepared for sudden changes.

### Fund Review & Strategy

The Fund returned -1.32% for the month, outperforming the benchmark return of -2.75% by 1.43%. Year-to-date, the Fund returned -6.14%, outperforming the benchmark return of -7.64% by 1.50%. The outperformance in February was mainly due to stock selection of underlying local fund. Global equities were dragged down in February due to the underperformance of US equities, influenced by economic uncertainty, global geopolitical risks, and federal layoffs. Given the ambiguity surrounding the scope, timing, and sequencing of Trump's proposed policies, especially on the trade and tariff fronts, there is still significant uncertainty surrounding Trump's policies and their potential impact on the markets. The Fund is expected to maintain a neutral position as challenges to the US exceptionalism narrative make the case for investors to look beyond the US for diversification.

### Tinjauan Bulanan

Ekuiti Shariah Malaysia mengalami satu lagi bulan pembetulan pada Februari. Pasaran serantau pada umumnya lemah, kecuali China dan Hong Kong yang memberikan prestasi positif, didorong oleh pelancaran Deepseek sebuah syarikat permulaan di China pada akhir Januari 2025 dengan saham yang berkaitan dengan perdagangan AI mencatat penjualan. Februari ialah bulan pelaporan keputusan, yang mana majoriti syarikat melaporkan pendapatan bagi setahun penuh 2024. Secara keseluruhan, syarikat perladangan, perbankan dan utiliti melaporkan pendapatan sama ada sejajar atau lebih tinggi. Manakala prestasi sektor pengguna, teknologi, sarung tangan dan minyak dan gas mendukacitakan. Pada bulan tersebut, pelabur asing menjadi penjual bersih ekuiti sekali lagi (bulan kelima berturut-turut) yang bernilai RM2.2 bilion, manakala aliran keluar asing setakat tahun ini sebanyak RM5.33 bilion. Indeks Syariah EMAS FBM menutup bulan pada 11,411.79, turun 2.77% bulan ke bulan (MoM). Indeks Syariah Bermodal Kecil FBM merosot 7.0% pada bulan ini, tidak mengatasi pencapaian Indeks Syariah EMAS FBM.

### Gambaran Bulanan

Hanya enam minggu memasuki penggal kedua, Presiden AS Trump meluru untuk memenuhi janji pilihan rayanya, dan gaya impulsifnya telah mengakibatkan ketidaktentuan kepada pasaran global. Di sebalik ketidakpastian seputar pentadbiran Trump, kami percaya bahawa asas makro Malaysia kekal berdaya tahan. Dasar Trump mengenai pertumbuhan global dan perang perdagangan tarif balasan sudah pasti akan memberi kesan kepada pertumbuhan ekonomi Malaysia. Pelaburan langsung asing ("FDI") ke Malaysia terus kukuh, dibuktikan dengan peningkatan aktiviti pembinaan dan pemerolehan hartanah perindustrian oleh pelabur. Pelancongan juga semakin rancak, menyumbang secara positif kepada penggunaan umum. Selain itu, penggunaan mungkin mendapat rangsangan daripada kenaikan gaji penjawat awam pada Disember 2024 dan kenaikan gaji minimum 13% berkuat kuasa mulai 1 Februari 2025. Kami kekal berpandangan konstruktif ke atas Malaysia, kerana pasaran domestik dibanjiri dengan kecairan. Apa-apa pembetulan pasaran akan memberi peluang untuk mengumpul saham berasas kukuh pada penilaian yang lebih menarik. Namun begitu, kami menjangkakan volatiliti pasaran akan menjadi satu norma di bawah kepresidenan Trump, dan kita perlu terus berwaspada dan bersedia kepada perubahan mendadak.

### Tinjauan & Strategi Dana

Dana mencatat pulangan -1.32% pada bulan ini, mengatasi pulangan penanda aras sebanyak -2.75% dengan perbezaan 1.43%. Sejak awal tahun sehingga bulan tinjauan, Dana memperoleh pulangan -6.14%, mengatasi pulangan penanda aras sebanyak -7.64% dengan perbezaan 1.50%. Prestasi membanggakan pada bulan Februari disebabkan terutamanya oleh pemilihan saham tempatan Dana Sasaran. Ekuiti global diseret ke bawah pada Februari disebabkan prestasi ekuiti AS yang suram, dipengaruhi oleh ketidaktentuan ekonomi, risiko geopolitik global dan pemberhentian kakitangan kerajaan persekutuan. Memandangkan skop, masa dan penjujukan dasar yang dicadangkan Trump terutamanya yang melibatkan perdagangan dan tarif masih lagi diselimiuti keaburan, justeru ketidakpastian yang ketara mengenai dasar Trump dan potensi kesannya terhadap pasaran masih berlegar. Dana dijangka akan mengekalkan kedudukan neutral tatkala cabaran terhadap naratif eksepsionalisme AS menjadi alasan buat pelabur untuk mencari kepelbagaian di luar AS.
