Monthly Update / Laporan Bulanan Terkini

Market Review

The Malaysian equity markets took a breather in March, digesting the 4Q23 results season. Malaysia saw foreign investors become net sellers in March of RM2.8b, reversing 4 consecutive months net equity inflows. News flow in March was focused on infrastructure. The Cabinet approved the Penang LRT, and there was news that there were three concept proposals for the High-Speed Rail (HSR). The government finally inked a new operating agreement (OA) with Malaysia Airports Holdings Berhad, which also saw the additional transit passenger charge approved, and changes to the passenger service charges for KLIA terminal 1, 2 and other airports across Malaysia. The FBM Emas Shariah Index closed the month at 11,643.52, up 1.00% mom. The FBM Small Cap Shariah index gained 3.50% for the month and outperformed the FBM Emas Shariah Index.

Market Outlook

Global political issues continue to fester, without any resolution on the Russia-Ukraine conflict, and US-China relations remain tense. The ongoing Palestine-Israel conflict has added complications to the mix, resulting in the Red-Sea conflict that has an impact adding to sea-based transport. There is continued risk of tensions in this area escalating. There are still some diverging views on the risk of a recession, but for now given the continued resilience of the US economic data, and the persistent stickiness of inflation, investors are now expecting a soft landing in the US. Note that 2024 will be a year of many elections taking place globally, hence something for investors to monitor but so far elections results have been within expectations. Domestically, equity markets have started the year on a positive note so far, with investor sentiment improving running on themes relating to Johor, and NETR. We have some concerns on the roll out of PADU where registrations have been poor, which may impact the timing of execution (originally 2H2024) of rolling out the subsidy rationalization, increasing the risk of policy execution for the various new measures and policies as announced by the government. Persistent inflation will likely continue to be a bug-bear for the market especially in the 2H2024 when the targeted petrol subsidies are expected to rollout, and tighter household disposable incomes will continue to plague demand. The Palestine-Israel conflict has also resulted in boycotts of sales of those deemed to be supporting Israel, such as many fast food and coffee franchises. This may have an impact on employment and wages from these businesses if this boycott continues for long. Nevertheless, we remain cautiously optimistic, and any correction in the market will provide us the opportunity to accumulate fundamentally sound stocks.

Fund Review & Strategy

The Fund returned 2.04% for the month, outperforming the benchmark return of 1.23% by 0.81%. Year-to-date, the fund returned 7.39%, outperforming the benchmark return of 6.41% by 0.98%. The outperformance in March was mainly due to security selection within local equity fund as well as ETF performance. Global equities continued to rise in March led by Europe equities as the ECB signaled that rate cuts are on the way. At this stage, with US growth remaining strong and inflation not falling rapidly, the Fed is unlikely to cut interest rates in the first half of the year. Tensions stemming from not only Gaza-Israel conflict, but also the recent Strait of Hormuz incident, may cause further oil price volatility, raise energy-related inflation and increase global trade costs (i.e., rising shipping costs). In light of this, near term, the Fund is expected to hold close to neutral position between global and Malaysian equities.

Tinjauan Bulanan

Pasaran ekuiti Malaysia menghela nafas lega pada Mac sambil menghadam pelaporan 4Q23. Malaysia merakamkan pelabur asing sebagai penjual bersih pada Mac, berjumlah RM2.8 bilion, membalikkan aliran masuk ekuiti bersih 4 bulan berturut-turut. Aliran berita di bulan Mac tertumpu pada infrastruktur. Kabinet meluluskan LRT Pulau Pinang, dan terdapat berita bahawa terdapat tiga cadangan konsep projek Kereta Api Berkelajuan Tinggi (HSR). Kerajaan akhirnya menandatangani perjanjian operasi (OA) baharu dengan Malaysia Airports Holdings Berhad, yang turut meluluskan penambahan caj penumpang dalam transit, dan perubahan ke atas caj perkhidmatan penumpang di terminal 1 dan 2 KLIA serta lapangan terbang lain di seluruh Malaysia. Indeks FBM Emas Shariah menutup bulan pada 11,643.52, naik 1.00% bulan ke bulan (MoM). Indeks FBM Small Cap Shariah yang memperoleh 3.50% pada bulan tersebut turut mengatasi prestasi Indeks FBM Emas Shariah.

Gambaran Bulanan

Isu politik global terus meruncing, tanpa sebarang jalan keluar ditemui dalam konflik Rusia-Ukraine, manakala hubungan US-China kekal tegang. Konflik Palestin-Israel yang berlarutan menambahkan lagi kekusutan lalu mengakibatkan kesan kemelut Laut Merah mengusutkan lagi pengangkutan berasaskan laut. Risiko ketegangan yang berterusan di kawasan ini kian meningkat. Pandangan tentang risiko kemelesetan masih lagi berbeza-beza, tetapi buat masa ini memandangkan wujudnya data ekonomi US yang masih mampan, dan tekanan inflasi yang berterusan, pelabur kini menjangkakan pendaratan lembut di US. Perlu diberi perhatian bahawa 2024 akan menjadi tahun beberapa pilihan raya akan diadakan di seluruh dunia, justeru pelabur wajar memantaunya tetapi setakat ini keputusan pilihan raya bukanlah di luar jangkaan. Di dalam negeri, pasaran ekuiti memulakan tahun baru dalam nada positif setakat ini, dengan sentimen pelabur semakin baik seiring tema berkaitan Johor dan NETR. Kami dipagut kebimbangan mengenai angka pendaftaran selepas pelancaran PADU yang suam, yang mungkin memberi kesan kepada tempoh pelaksanaan (asalnya 2H2024) untuk melancarkan rasionalisasi subsidi, lalu meningkatkan risiko pelaksanaan pelbagai langkah dan dasar baharu seperti yang diumumkan oleh kerajaan sebelum ini. Inflasi yang berterusan berkemungkinan akan terus menjadi igauan pasaran terutamanya pada 2H2024 apabila subsidi petrol yang didasarkan dijangka akan dilancarkan, manakala pendapatan boleh guna isi rumah yang lebih kecil akan terus membelenggu permintaan. Konflik Palestin-Israel juga telah mengakibatkan boikot ke atas penjualan produk yang dianggap menyokong Israel, seperti kebanyakan francais makanan segera dan kopi. Ini mungkin memberi kesan kepada pekerjaan dan gaji perniagaan tersebut jika pemboikotan berterusan untuk masa yang lama. Apa pun, kami kekal optimistik namun berhati-hati, dan sebarang pembetulan pasaran akan menyediakan peluang buat kami mengumpul saham yang kukuh pada dasarnya.

Tinjauan & Strategi Dana

Dana meraih pulangan 2.04% pada bulan ini, mengatasi pulangan penanda aras 1.23% dengan perbezaan 0.81%. Sejak awal tahun sehingga bulan tinjauan, Dana mengembalikan 7.39%, mengatasi pulangan penanda aras 6.41% dengan perbezaan 0.98%. Prestasi baik pada Mac disumbangkan terutamanya oleh pemilihan sekuriti dalam dana ekuiti tempatan serta prestasi ETF. Ekuiti global terus meningkat pada Mac, diterajui oleh ekuiti Eropah apabila ECB memberi isyarat bahawa pemotongan kadar sedang dirancang. Pada peringkat ini, dengan pertumbuhan US kekal kukuh dan inflasi tidak jatuh dengan cepat, maka Fed tidak mungkin mengurangkan kadar faedah pada separuh pertama tahun ini. Ketegangan yang berpunca daripada bukan sahaja konflik Gaza-Israel, tetapi juga insiden Selat Hormuz baru-baru ini, boleh menyebabkan harga minyak semakin ketaktentuan, lalu meningkatkan inflasi berkaitan tenaga dan menaikkan kos perdagangan global (iaitu, kenaikan kos penghantaran). Sehubungan dengan ini, menurut jangka masa terdekat, Dana dijangka akan memegang ekuiti global dan Malaysia hampir kepada kedudukan neutral.
