Monthly Update / Laporan Bulanan Terkini

Market Review

Malaysian Shariah equities for February saw another month of correction. Regional markets were generally weak, with the exception of the positive performance in China and Hong Kong, spurred by the launch of Chinese startup Deepseek end January 2025 and saw a sell-off in stocks related to the AI trade. February was the results reporting month, where a majority of companies reported their 2024 full year earnings. Overall, the plantation, banking and utilities companies reported earnings either in line or above. Whilst the disappointments came from the consumer, technology, gloves and oil and gas sectors. During the month, foreign investors were net sellers of equities yet again (the fifth consecutive month) of RM2.2bil, and year to date foreign outflow of RM5.33bil. The FBM EMAS Shariah Index closed the month at 11,411.79, down 2.77% MoM. The FBM Shariah Small Cap Index declined 7.0% for the month and underperformed the FBM EMAS Shariah Index.

Market Outlook

Just six weeks into his second term, US President Trump has swiftly moved to fulfill his election promises, and his impulsive style has already introduced volatility to global markets. Despite the uncertainties surrounding a Trump presidency, we believe Malaysia's macro fundamentals remain resilient. Trump's policies on global growth and retaliatory tariff trade wars will undoubtedly impact Malaysia's economic growth. Foreign direct investment ("FDI") into Malaysia continues to be strong, evidenced by increased construction activities and the acquisition of industrial properties by investors. Tourism is also on the rise, contributing positively to general consumption. Additionally, consumption is likely to get a boost from the civil servants' pay hike in December 2024 and the 13% minimum wage increase effective February 1 2025. We remain constructive on Malaysia, as the domestic market is flush with liquidity. Any market corrections will provide opportunities to accumulate fundamentally strong stocks at more attractive valuations. However, we anticipate market volatility to be the norm under a Trump presidency, and we need to remain vigilant and be prepared for sudden changes.

Fund Review & Strategy

The Fund returned -0.94% for the month, outperforming the benchmark return of -1.29% by 0.35%. Year-to-date, the Fund returned -6.81%, underperforming the benchmark return of -4.58% by 2.23%. The outperformance in February was mainly attributed to the underlying Fund's overweight positions in the fixed line telecommunication stocks. For equity, we remain constructive on sectors that stand to benefit from thematic plays (NETR, NIMP, JS-SEZ). We continue to focus on companies where fundamentals remain solid and look for opportunities to buy on weakness for longer term growth. For fixed income, the Fund would look to participate in selected quality issuances for yield pick-up, and trade on market volatility, subject to liquidity constraints.

Tinjauan Bulanan

Ekuiti Shariah Malaysia mengalami satu lagi lagi bulan pembetulan pada Februari. Pasaran serantau pada umumnya lemah, kecuali China dan Hong Kong yang memberikan prestasi positif, didorong oleh pelancaran Deepseek sebuah syarikat permulaan di China pada akhir Januari 2025 dengan saham yang berkaitan dengan perdagangan AI mencatat penjualan. Februari ialah bulan pelaporan keputusan, yang mana majoriti syarikat melaporkan pendapatan bagi setahun penuh 2024. Secara keseluruhan, syarikat perlادangan, perbankan dan utiliti melaporkan pendapatan sama ada sejajar atau lebih tinggi. Manakala prestasi sektor pengguna, teknologi, sarung tangan dan minyak dan gas mendukacitakan. Pada bulan tersebut, pelabur asing menjadikan penjualan bersih ekuiti sekali lagi (bulan kelima berturut-turut) yang bernilai RM2.2 bilion, manakala aliran keluar asing setakat tahun ini sebanyak RM5.33 bilion. Indeks Syariah EMAS FBM menutup bulan pada 11,411.79, turun 2.77% bulan ke bulan (MoM). Indeks Syariah Bermodal Kecil FBM merosot 7.0% pada bulan ini, tidak mengatasi pencapaian Indeks Syariah EMAS FBM.

Gambaran Bulanan

Hanya enam minggu memasuki penggal kedua, Presiden AS Trump meluru untuk memenuhi janji pilihan rayanya, dan gaya impulsifnya telah mengakibatkan ketidaktentuan kepada pasaran global. Di sebalik ketidakpastian seputar pentadbiran Trump, kami percaya bahawa asas makro Malaysia kekal berdaya tahan. Dasar Trump mengenai pertumbuhan global dan perang perdagangan tarif balasan sudah pasti akan memberi kesan kepada pertumbuhan ekonomi Malaysia. Pelaburan langsung asing ("FDI") ke Malaysia terus kukuh, dibuktikan dengan peningkatan aktiviti pembinaan dan pemerolehan harta tanah perindustrian oleh pelabur. Pelancongan juga semakin rancak, menyumbang secara positif kepada penggunaan umum. Selain itu, penggunaan mungkin mendapat rangsangan daripada kenaikan gaji perjawat awam pada Disember 2024 dan kenaikan gaji minimum 13% berkuat kuasa mulai 1 Februari 2025. Kami kekal berpandangan konstruktif ke atas Malaysia, kerana pasaran domestik dibanjiri dengan kecairan. Apa-apa pembetulan pasaran akan memberi peluang untuk mengumpul saham berdasarkan kukuh pada penilaian yang lebih menarik. Namun begitu, kami menjangkakan volatiliti pasaran akan menjadi satu norma di bawah kepresidenan Trump, dan kita perlu terus berwaspada dan bersedia kepada perubahan mendadak.

Tinjauan & Strategi Dana

Dana mencatat pulangan -0.94% pada bulan ini, mengatasi pulangan penanda aras sebanyak -1.29% dengan perbezaan 0.35%. Sejak awal tahun sehingga bulan tinjauan, Dana memperoleh pulangan -6.81%, tidak mengatasi pulangan penanda aras sebanyak -4.58% dengan perbezaan 2.23%. Prestasi baik pada bulan Februari disebabkan terutamanya oleh kedudukan pegangan berlebihan Dana Sasaran dalam saham telekomunikasi talian tetap. Meninjau ekuiti, kami masih berpandangan konstruktif ke atas sektor yang mendapat manfaat daripada permainan bertema (NETR, NIMP, JS-SEZ). Kami terus memberi tumpuan kepada syarikat yang asasnya masih utuh dan mencari peluang untuk membeli saham pada harga yang rendah bagi pertumbuhan jangka panjang. Menyorot pendapatan tetap, Dana akan menimbang untuk mengambil bahagian dalam terbitan berkualiti terpilih agar hasil bertambah sambil berdagang meskipun pasaran tidak menentu, tertakluk kepada kekangan mudah tunai.
