## Monthly Update / Laporan Bulanan Terkini

### Fund Review & Strategy

The Fund returned -3.57% for the month, underperforming the benchmark return of -2.72% by 0.85%. Year-to-date, The Fund returned 1.15%, underperforming the benchmark return of 2.28% by 1.13%. Global equities ended December lower due to concerns that interest rates would remain higher than expected for the foreseeable future. This followed the US Federal Reserve ("Fed") cutting rates at its latest meeting but flagging only 50 basis points ("bps") of further reductions in 2025, down from the previously signalled 100 bps. Some of Trump's policies – including increased tariffs and reduced immigration – are seen as potentially inflationary, leading investors to anticipate a more measured pace of easing from the Fed in the months ahead. At the stock level, the most notable detractor was Tesla, a stock the Target Fund does not own given it fails the Target Fund Manager's ESG screens. Their underweight position weighed on relative returns as the shares rallied on the back of optimism surrounding the election of Donald Trump. In healthcare, Novo Nordisk lagged following disappointing trial data which came in below market expectations on efficacy. The Target Fund Manager is engaging with the company to help assess the next steps. More positively, Marvell was a very strong contributor following a strong set of results that suggest its custom silicone business will drive a very strong acceleration in the company's growth. Brunello Cucinelli also performed well following a good set of results that demonstrated the company's resilient growth and pricing power. The Target Fund Manager introduced a new position in Auto Trader, an online classifieds business operating mainly in the UK, which is adding product capabilities that they think can supplement its core price-driven growth over and above market expectations. They think the stock is mispriced given these growth prospects. The Target Fund Manager funded this new position by exiting a small position in Asahi Intecc as they no longer had confidence in the company's growth prospects.

### Tinjauan & Strategi Dana

Dana mencatat pulangan -3.57% pada bulan ini, tidak mengatasi pulangan penanda aras sebanyak -2.72% dengan perbezaan 0.85%. Sejak awal tahun sehingga kini, Dana menghasilkan pulangan 1.15%, tidak mengatasi pulangan penanda aras sebanyak 2.28% dengan perbezaan 1.13%. Ekuiti global mengakhiri Disember lebih rendah disebabkan kebimbangan bahawa kadar faedah akan kekal lebih tinggi berbanding jangkaan untuk masa hadapan. Hal ini berikutan Rizab Persekutuan AS memotong kadar pada mesyuarat terbaharunya tetapi hanya mengisyaratkan pengurangan selanjutnya sebanyak hanya 50 mata asas pada 2025, turun daripada 100 mata asas sebelum ini. Beberapa dasar Trump – termasuk kenaikan tarif dan pengurangan imigresen – dilihat sebagai mengundang inflasi, mendorong pelabur untuk menjangkakan kadar pelonggaran yang lebih terukur daripada Rizab Persekutuan AS pada bulan-bulan mendatang. Pada peringkat saham, penjejas yang paling ketara ialah Tesla, saham yang tidak dimiliki Dana Sasaran memandangkan ia gagal dalam skrin ESG Pengurus Dana Sasaran. Kedudukan kekurangan pegangan ini memberi kesan kepada pulangan relatif apabila saham tersebut meningkat di belakang keyakinan yang melingkari pemilihan Donald Trump. Dalam menjaga kesihatan, Novo Nordisk kecicir berikutan data percubaan yang mengecewakan, di bawah jangkaan pasaran mengenai keberkesanannya. Pengurus Dana Sasaran sedang melibatkan diri dengan syarikat tersebut agar langkah seterusnya dapat dinilai. Lebih positif lagi, Marvell merupakan penyumbang yang sangat kuat berikutan keputusan kukuh yang mencadangkan perniagaan silikon tersuainya akan memacu pecutan pertumbuhan syarikat dengan ampuh. Brunello Cucinelli juga menunjukkan prestasi yang baik susulan keputusan prestasi yang baik, menunjukkan pertumbuhan syarikat yang berdaya tahan dan memiliki kuasa penetapan harga. Pengurus Dana Sasaran memperkenalkan kedudukan baharu dalam Auto Trader, sebuah perniagaan iklan dalam talian yang beroperasi terutamanya di UK, yang menambah keupayaan produk yang difikir boleh menambah pertumbuhan teras harga yang dipacunya melebihi jangkaan pasaran. Saham tersebut dianggap salah harga memandangkan prospek pertumbuhannya. Pengurus Dana Sasaran membentuk baharu ini dengan menjual pegangan kecil dalam Asahi Intecc kerana tidak lagi mempunyai keyakinan terhadap prospek pertumbuhan syarikat.
