Monthly Update / Laporan Bulanan Terkini

Fund Review & Strategy

The Fund returned 0.44% for the month, underperforming the benchmark return of 0.96% by 0.52%. Year-to-date, The Fund returned 6.92%, outperforming the benchmark return of 6.82% by 0.10%. Global equity markets ended higher in May. Investors are now factoring in interest-rate cuts in the US, Europe and the UK sometime in 2024. However, with inflationary pressures still present, most of the world's major central banks have maintained a cautious stance on monetary policy. As a result, any easing is now expected later in the year than previously forecast. Meanwhile, robust economic data, particularly in the US, has raised hopes for a 'soft landing'. Against this backdrop, corporates' first-quarter results have generally exceeded expectations. Lululemon was among the main laggards as the market worried about upcoming results and the weakening US market. The Target Fund's overweight in Microsoft weighed on relative returns after strong third quarter results. Accenture also lagged. The company's consulting business remains challenged driven by weakness on discretionary projects. Two deals announced in early May should support revenue growth and they are hopeful that IT budgets will start recovering in 2025. More positively, Marvell performed well as it is seen as a beneficiary of AI-related growth. However, the Target Fund Manager have yet to see a cyclical rebound in enterprise networking, wireless and storage. ASML continued to recover following first quarter results where orders came in below expectations. Elsewhere, Analog Devices added value. The company's management is confident that it is entering a cyclical recovery supported by a positive book and improving backlog. The Target Fund Manager exited low conviction holdings in: Kering, Prologis, Pfizer, Sanofi, Ace Hardware, Telekom Indonesia and Singapore Telecommunications. They initiated new positions in Brunello Cucinelli, Watsco, SAP and NVIDIA. This was partly funded through trims to Trane Technologies, Ferrari and Goodman on valuation grounds. They also reduced ASML to manage the Target Fund's overall exposure to semiconductors.

Tinjauan & Strategi Dana

Dana memberikan pulangan 0.44% pada bulan ini, tidak mengatasi pulangan penanda aras 0.96% dengan perbezaan 0.52%. Sejak awal tahun sehingga bulan tinjauan, Dana memperoleh pulangan 6.92%, mengatasi pulangan penanda aras 6.82% dengan perbezaan 0.10%. Pasaran ekuiti global ditutup lebih tinggi pada Mei. Pelabur kini memfaktorhargakan pemotongan kadar faedah di US, Eropah dan UK bagi tahun 2024. Bagaimanapun, dengan tekanan inflasi yang masih wujud, maka kebanyakan bank pusat utama dunia mengekalkan pendirian berhati-hati terhadap dasar monetari. Akibatnya, sebarang pelonggaran kini dijangka akan dilihat pada lewat tahun ini, tidak seperti ramalan sebelumnya. Sementara itu, keteguhan data ekonomi khususnya di US, menyemarakkan harapan kepada 'pendaratian lembut'. Oleh yang demikian, keputusan suku pertama korporat secara amnya melangkaui jangkaan. Lululemon antara yang paling ketinggalan apabila pasaran bimbang tentang laporan prestasi akan datang disamping pasaran US yang semakin lemah. Dana Sasaran yang kekurangan pegangan dalam Microsoft mempengaruhi pulangan relatif selepas memberikan keputusan suku ketiga yang kukuh. Accenture juga kecinciran. Perniagaan perundingan syarikat ini masih lagi terkekang berikutan kesuraman projek pengguna bukan keperluan. Dua tawaran yang diumumkan pada awal Mei sepertutnya menyokong pertumbuhan hasil dan berharap belanjawan IT akan mula pulih pada 2025. Tinjauan yang lebih positif ialah Marvell menunjukkan prestasi yang baik apabila ia dilihat sebagai beneficiari pertumbuhan berkaitan AI. Walau bagaimanapun, Pengurus Dana Sasaran masih belum melihat pemulihan kitaran perusahaan, wayarles dan storan. ASML meneruskan pemulihan susulan keputusan suku pertama apabila pesanan yang masuk lebih rendah dari jangkaan. Di tempat lain, Analog Devices menambah nilai. Pengurusan syarikat yakin bahawa ia sedang memasuki pemulihan kitaran disokong oleh rekod yang positif dan penambahbaikan tunggakan. Pengurus Dana Sasaran keluar daripada pegangan sabitan rendah dalam: Kering, Prologis, Pfizer, Sanofi, Ace Hardware, Telekom Indonesia dan Telekomunikasi Singapura. Pengurus memulakan kedudukan baharu dalam Brunello Cucinelli, Watsco, SAP dan NVIDIA. Sebahagiannya dibayai oleh pengurangan pegangan pada Trane Technologies, Ferrari dan Goodman atas dasar penilaian. Pengurus juga mengurangkan pegangan dalam ASML untuk menguruskan pendedahan keseluruhan Dana Sasaran kepada semikonduktor.
